Kitchen Lighting

Thoughtfully integrated linear lighting elevates the kitchen beyond utility. By layering light precisely where it's needed, it enhances visual comfort, accentuates craftsmanship, and creates a warm, inviting environment tailored to everyday living.

ARGENTO™ 300 Light Engine
Architectural Frosted Lens

Cove & Curtain Lighting

Cove lighting adds a soft, tucked-away glow that instantly gives a space more depth, warmth, and atmosphere.

Curtain lighting brings a similar sense of drama, washing light downward for a clean, elevated effect.

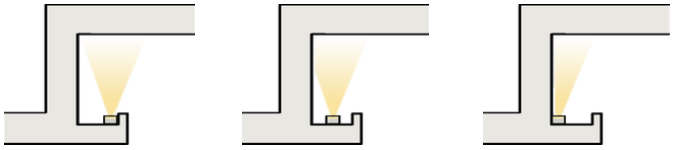

COVE & CURTAIN LIGHTING

Cove

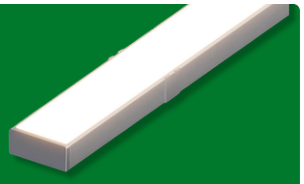

Mounting Options

Front Mounted | Center Mounted | Rear Mounted

Recommended Product

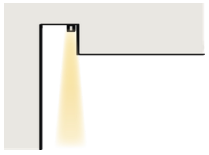

- FSL Fixture
- Powered by ARGENTO™ S
- Architectural Clear Lens

Curtain Pocket

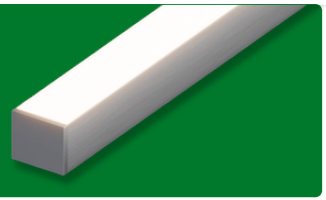

Mounting Options

Front Mounted

Recommended Product

- AR2 Fixture
- Powered by ARGENTO™ COB
- Architectural Frosted Lens

Grazing & Washing

Wall grazing and wall washing are architectural lighting techniques that add depth and dimension to interior spaces.

Grazing accentuates texture through dramatic shadow play, highlighting the natural character of materials and finishes. Washing creates even illumination that enhances surfaces with a soft, elegant glow.

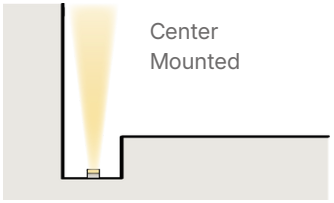

GRAZING & WALL WASHING

Wall Grazing

Mounting Options

Recommended Product

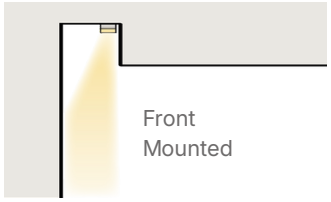

- TRUE FOCUS™ Fixture
- Patented low-glare optic

Wall Washing

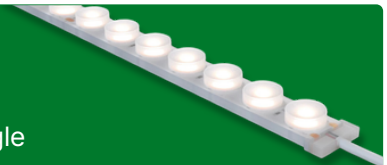

Mounting Options

Recommended Product

- TRUE FOCUS™ Flex
- 20º or Asymmetrical Beam Angle

Stair Lighting

Precisely integrated illumination defines each tread with a clean, consistent glow, improving wayfinding while accentuating the staircase as a distinctive architectural feature.

Backlighting

Backlighting transforms stone, architectural panels, and other translucent materials into luminous design features. By delivering uniform illumination from behind the surface, it reveals depth, texture, and natural variation while creating a striking visual focal point.
